

# PWM Repeater

- wired PWM repeater, 4-channel
- transmits PWM signals from one LED strip to the next
- enables the operation of several LED strips with only one control unit
- integration is possible in different profiles
- relays frequencies up to 20 kHz
- input voltage: 10 to 48 V DC
- com+ common anode

Please note the installation- and safety instructions.

	66000059
Number of channels	4
Operating voltage DC	10 V DC~48 V DC
Output current per channel	4 A
Max. total power	384 W
Connection via	Screw terminals
Color of body	silber-grau
Ambient temperature	0~+50 ° C
Max. temperature Tc	80 ° C
Length	180 mm
Width	17 mm
Height	20 mm
Weight	20 gr
